

Ring Size Guide

Our ring size guide is designed for use with an existing ring. To ensure your measurement is accurate, it's best to use a ring in the same style you're looking to buy if possible.

This ring sizer is for guidance only.

For more guidance, please feel free to visit the store or call us on 01752 228000.

Instructions

1. Print this sheet at 100% - if you choose the 'scale to fit page' option you will not get an accurate measurement.
2. Check the size of your print out - the line opposite should measure 4cm.
3. Place your ring over the circles above.
4. Match your ring to a circle that fills the inside of the ring (the internal diameter) without any overlap.
5. Your ring size is the letter of your matching circle.
